

## Position Overview

Environmental Management Specialists, Inc. is currently looking for qualified, hardworking, and motivated professionals to join our Team as full-time Specialists. EMS is one of the leading environmental remediation, industrial cleaning, and abrasive blasting service companies in the region.

Since 1990, Environmental Management Specialists, Inc. has provided effective environmental management solutions to property owners, lenders, local and state government bodies, schools, hospitals, and private industry.

As an E.M.S Specialist, you would be part of a Team that leads the region in asbestos (ACM) removal, mold remediation, lead paint abatement, commercial duct cleaning, industrial cleaning, combustible dust remediation, dry ice blasting/cleaning, sponge blasting/cleaning, and other low dust sandblasting alternatives!

Specialists are responsible for working as a team with the Project Supervisors to complete projects safely, on time, and with the quality that has built the reputation that EMS has achieved!
